# Mobile Maintenance

## **Roadblocks:**

“There are two primary challenges of implementing mobile CMMS technology: lack of software adoption by staff or technicians and slow app connections or Wi-Fi challenges.” – Facilitiesnet

# Mobile Maintenance

## Roadblocks:

- Adoption
- Connectivity

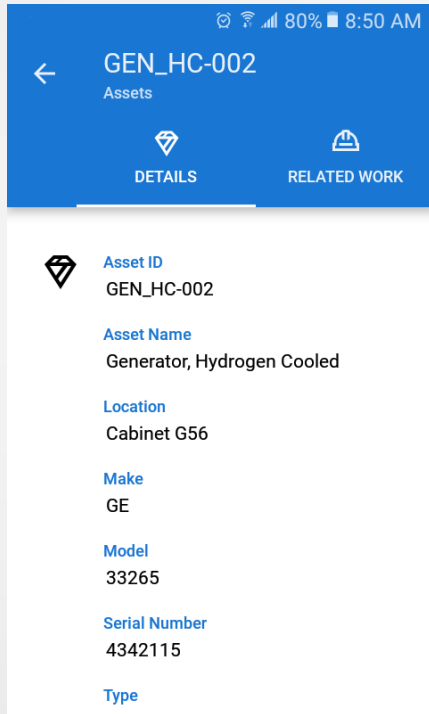

# Mobile Maintenance

## Purpose Built User Experience

- Faster user adoption of the CMMS.
- More efficient utilization of time spent using the CMMS.

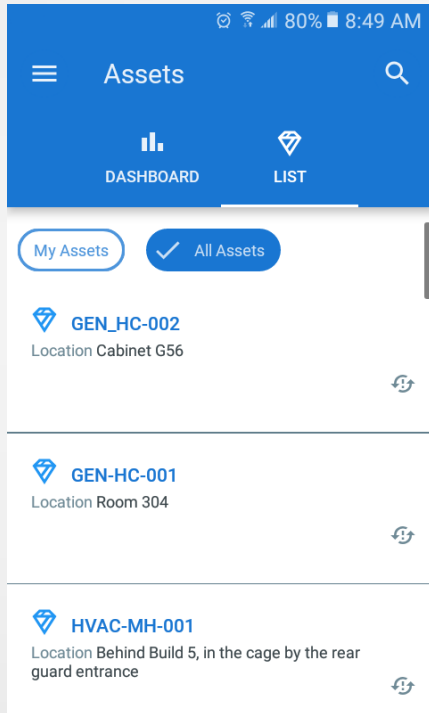

# Mobile Maintenance

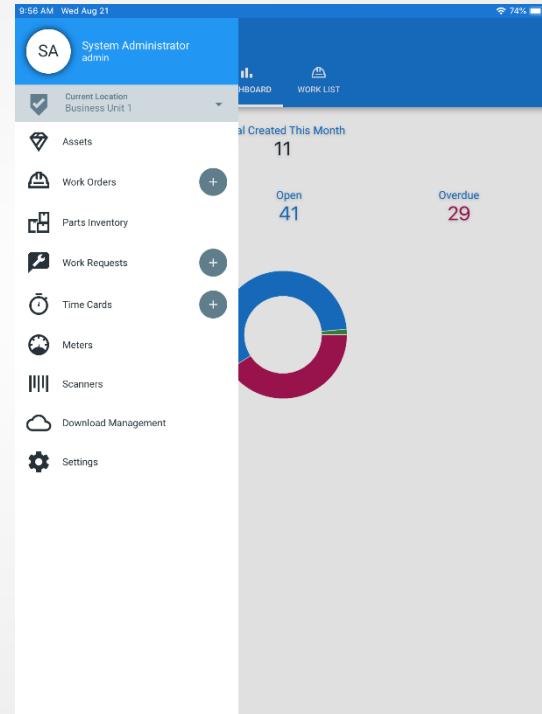

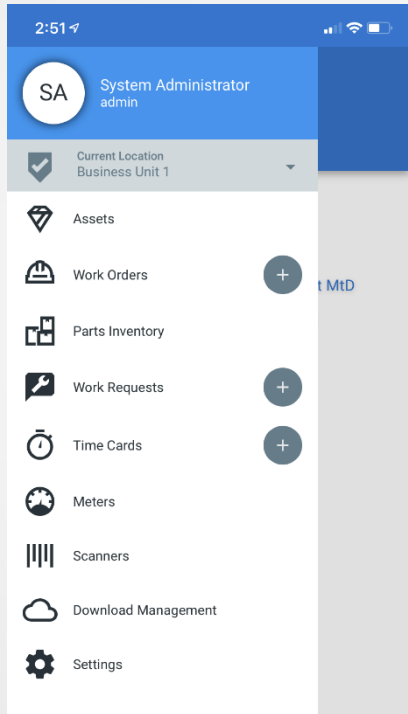

- Simplified Interface
- Specific Data Points
