

Web Migration and Mobile: Making the Leap

By: BJ Gay

INNOVATIONS

Mobile Considerations

- Devices
 - IT Approved
Network access and security
 - Amount
Sharing vs Dedicated
 - Form Factor
Tablet vs Phone
 - Internals
Data storage, processing
 - Features
Cameras, bluetooth, dataplan, etc.

Mobile Considerations

- Infrastructure
 - Server
IIS equipped, API administration
 - Connectivity
Slow connections, offline scenarios, testing
 - Data accumulation
Attachments

Web Migration Considerations

- Functional
 - Gap vs Difference
Evaluation and definition (I don't like ETBT)
 - New function rollout
Work flow, Dashboards, Modules, etc.
 - Documented Testing
Test plans, user acceptance criteria
- Data Migration
 - Data Remediation
 - Data Validation testing
Reports, records, exports, imports, etc.

Web Migration Considerations

- Implementation
 - Training
Differences, Admin, and User.
 - Piloting
New sites, partial rollout.
